I got into the office early this morning, eager to begin working on this week's issue of *From the Bullpen*. As my eyes scanned across the fax machine in search of Rubella's morning report – and potential fresh material for this week's edition – I wandered across the foregoing Special Edition of *The Bellyflop*. Perusing same, I was promptly rendered speechless, and hence have nothing to add to U-Belly's twisted musings, save this: Well, you got your damned logo, Bob, this week and next time you put out a Special Edition if you'll give us a bit of advanced warning we'll work on that three-headed monster known<sup>1</sup> as Grammar, Syntax and Punctuation. Sorry we didn't have time for it this week.

One more thing – this week's standings and point totals:
